

(Youngstown, OH) U.S. Congressman Tim Ryan (OH-17) made the following comment regarding the appointment of Dr. Cynthia Anderson as the new President of Youngstown State University.

"Dr. Cynthia Anderson is a great choice for Youngstown State University and the Mahoning Valley," noted Congressman Ryan. **"Dr. Anderson's work as Vice President for Student Affairs has enabled her to initiate productive partnerships with many of her colleagues throughout the university system. In addition, the selection of a current YSU employee (and former YSU student) speaks volumes about the caliber of professionals located right here in our Valley. I am certain that Dr. Anderson's dedication to our community will only increase in her position as YSU President, and I am excited to begin working with her as we continue to forge even stronger partnerships between the university and its surrounding community."**
